EXPERIENCE

CEO-FOUNDER

Feb. 2022 – Oct.2022 | Bero

Bero was a real estate crowdfunding based in Colombia which used blockchain technologies such as tokenization.

As a CEO I was in charge of raising capital, manage developer team to release MVP on time, participate on marketing decisions and being in touch with stakeholders.

Bero closed because they had some legal barriers with blockchain and difficulties to raise capital for market conditions, generating to burn out cashflow.

INVESTMENT RISK ANALYST

may. 2022 – Feb. 2022 | Protección

Participate in investment decisions in terms of risk management. Being in charge of Aladdin compliance and risk tool from Blackrock supplier. Guarantee that legal requirement from regulator is complied. Participated in ESG local ecosystem to boost their politics implementation.

Create financial models in python and Power Bi which help to make investment decisions and create mutual funds term sheets.

SETTLEMENT AND CLEARING ANALYST

Jul. 2018 – Oct. 2020 | BTG Pactual

Guarantee either local and international trades are settled on time. Being in touch with custodians and international clients to manage their trades. Conciliate cash flow from Cayman Branch subsidiary.

CREDIT RISK INTERSHIP

Jan. 2018 – Jul. 2018 | BTG Pactual

Do some due diligence to analyze credit risk from issuers. Implement ISDA's (derivatives agreement) and create some financial tool to manage daily margin calls.
